The Third Annual ACF Tallahassee Chapter Chef and Child Hunger Day will take place on Wednesday October 15, 2003 on the front lawn of the Governor's Mansion. There have been 300 children invited.

The ACF Tallahassee Chapter is planning a nutrition awareness booth for the activity portion of the event. "This is the third year for this event and we hope to make it the best one yet!" exclaimed Chef Dominic Cianciola CEC, Chairman for the ACF Tallahassee Chapter Chef and Child Program.

The children attending the event will be brought by buses to the lawn of the Governor's Mansion, where they will enjoy a beautiful October afternoon. They will receive a nutritionally balanced lunch, which will be prepared by students at Capital Culinary Institute of Keiser College. The children will also get a chance to talk with chefs about proper nutrition.

This year we plan to have the local Red Cross Fire House at the event, to teach children the importance of fire safety. We will also have local clowns and a bounce house donated by Bouncers for the children.

Each attendee will leave with a goodie bag assembled by the chef organization filled with items donated by companies including pears from the Northwestern Pear Council, stickers, balloons, toothbrushes and we have over 300 books to be given out as well, to keep the children focused on healthy eating.
